VIPIN KUSHWAHA

ABOUT

To work in an organization which provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization.

I enjoy building scalable software that solve practical problems. I work with HTML5, CSS3, BOOTSTRAP and JAVA. I'm also eager to learn new technologies.

PRESENTATION WEBSITE
Usually the Presentation is create on Microsoft PowerPoint but this is a unique project to show the presentation design by coding of every page. This project having 2 benefits its look like a presentation and it work like as a bootstrap tutorial as well.

ANIMATION
This is an animation with very unique style because it's continue moving on the same axis and if the mouse will touch on any icon so it's open a new information without disturbing another 4 circle.
